

As a father of three growing children, I am begging you to please take steps to ensure that K-LOVE's signal is not disrupted. What better gift can a father give his children than the gift of knowing our Lord? This radio station is a tool that we can use to keep the message in front of our children at all times. In an age when so many children are turning to alternatives, it is important that we keep a positive uplifting message in front of our youth. My children LOVE the music and inspiration they hear on K-LOVE and would be lost without it as would my wife and I. All our radios in our vehicles and at home are all tuned to this station and never leave it. I am not saying that this will be the downfall of our society, but it is important to keep emphasizing the positive. Please do take allow us to lose our K-LOVE signal!!!!
